OBJECTIVE

Motivated Full Stack Developer seeking an opportunity to apply my skills in building responsive and scalable web applications. Passionate about developing user-friendly solutions using modern technologies like React, Spring Boot, and MySQL, while continuously learning and contributing to real-world projects.

EDUCATION

B.Tech in Computer Science , JNTUA College of Engineering (Autonomous), Kalikiri CGPA: 8.6	Expected 2027 AP, India
Intermediate (MPC) , AP Residential Junior College, Vayalpad Percentage: 97.3%	2021 – 2023 AP, India
SSC , Prathibha Vikas (EM) High School, Guntakal Percentage: 100%	2020 – 2021 AP, India

SKILLS

Programming Languages	Java, HTML, CSS, JavaScript
Frameworks	React.js, Spring Boot, Spring Security
Databases	MySQL, SQL
Developer Tools	VS Code, Git, GitHub
Academic Coursework	Data Structures, Operating Systems, Computer Networks, OOPs, DBMS
Certifications	Java, DBMS, OOPs (Infosys Springboard)

EXPERIENCE

Full Stack Java Intern Infosys Springboard	September 1, 2025 to November 5, 2025 AP, India
--	--

- Built a full-stack Inventory Management System using React.js (frontend), Spring Boot (backend), and MySQL.
- User registration and login implemented using username-and-password authentication with Spring Security.
- Implemented role-based authentication for Admin, Manager, and Vendor with secure dashboards.
- Implemented a user-friendly interface for displaying the complete product list.
- Developed secure IN/OUT transaction processing across various product categories.
- Designed an analytics dashboard with charts for sales and demand trends.

Full Stack Web Development Intern CodTech IT Solutions	April 19, 2026 to June 14, 2026 AP, India
--	--

- Developed responsive and interactive web applications using HTML, CSS, JavaScript, and React.js.
- Integrated REST APIs to enable seamless communication between frontend and backend services.
- Built reusable UI components and improved application responsiveness across devices.
- Worked with Git and GitHub for version control and collaborative development.

PROJECTS

Full Stack Inventory Management System A complete web-based inventory management application that helps businesses efficiently manage products, stock levels, and inventory records. The system allows users to add, update, delete, and track items in real-time, providing a simple interface to monitor stock availability and maintain accurate inventory data. • TechStack: React.js (Frontend), Spring Boot (Backend), MySQL (Database) ([Link](#))

Smart Weather Dashboard A responsive Weather Dashboard web application that fetches and displays real-time weather data along with a 5-day forecast using OpenWeather API. It enables users to search any city and view live weather metrics like temperature, humidity, wind speed, and conditions through a dynamic and interactive UI with efficient API integration. • Tech Stack: HTML, CSS, JavaScript, OpenWeather API ([Link](#))

Yappo A real-time chat application that enables users to communicate instantly through a modern and responsive interface. The application supports secure authentication, seamless messaging, and dynamic updates, providing users with a smooth and interactive chatting experience. • Tech Stack: React.js, Spring Boot, WebSocket, MySQL ([Link](#))

SyncPad A collaborative note-sharing platform that allows users to create, edit, and synchronize notes in real time. The application enables multiple users to work together efficiently with a clean and responsive interface, making note management simple and productive. • Tech Stack: React.js, Spring Boot, WebSocket, MySQL ([Link](#))
